This third volume of the book of New School includes the participation of more than 40 recognized artists from around the world. The book is divided into 2 sections: Paintings and Drawings and Sketches. In the Paintings and Drawings section you will find works with different degrees of complexity and works with different techniques and backups. In Sketches, we present a series of sketches in pencil or colors with different degrees of development. The total collection consists of 120 works, of which we are going to find 79 in Paintings and Drawings section and 41 in that of Sketches

The works, in each section, are divided according to artists and they can be quickly located by means of the table of contents.

All the works are found in images of high resolution, trying to achieve an impression being as faithful as possible to the original. As we all know, the style called New School, has grown a lot in these last years with the appearance of talented artists, that surprise us with the creativity and innovation that they give to their works.

Due to this, the book presents an enormous artistic diversity, covering examples linked to this style, such as Graffiti, Comic, Cartoon and caricature. Depending on the particular artist, you will be able to find diverse techniques and backups which have carried out these works, also that distinctive and personal touch, that each one of them has.

Just like in all the books that have been published, the main objectives of our works are that of diffusing the work of these great artists of the tattoo world and to be able to offer them tools to facilitate the process of creation and to promote the same to people that are at any level of learning, since we never finish learning everything and always we can take some new concepts that will be very useful to us. We cannot forget the fanatics of the tattoos of this style, who will be able to opt for some of these teachers for their next tattoo or to have some reference of what it would be like to be tattooed. We thank all the artists that sent us their works, making this book possible, and to all our readers, by supporting us in each one of our projects. The artists included in this book are the following:
